

Lavar Ren

100% herbal medicine to enhance kidney function

Suitable for poultry

Oral solution

Ingredients:

- Stinging Nettle (*Urtica dioica*) Extract

Mechanism of action:

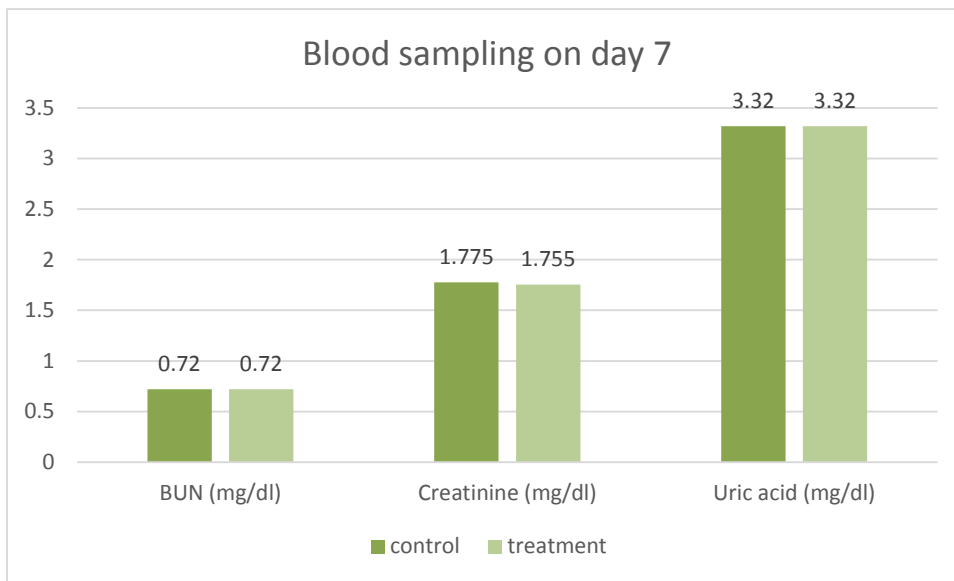

Lavar Ren contains natural extracts of plants such as nettle and is formulated in a way that its different components intensify and strengthen each other's therapeutic effects. The most important active ingredients in this medicine include phenolic compounds, quercetin, caffeoylmalic acid and chlorogenic acid. By increasing the volume and flow of urine, the active ingredients in Lavar Ren prevent retention of urine in the urinary tract and lead to the excretion of renal deposits and prevent the formation of kidney and bladder stones. The nettle in this product is very effective in reducing inflammation and infection of the urinary tract. Also, due to the high amounts of iron and vitamin C in nettle, it has antioxidant and anti-stress functions.

In general, Lavar Ren product improves kidney function, increases appetite and water consumption with a positive effect on kidneys and reducing renal load.

Lavar Ren Indications:

- Diuretic
 - Improvement of acute and chronic nephritis and prevention of renal failure
 - Detoxification of drugs and chemicals (after the antibiotic therapy)
 - Urinary tract disinfectant
 - In cases of improper balance of dietary minerals (calcium, phosphorus, sodium, ...)
 - In cases of bacterial and viral infections (such as bronchitis, Gumboro, Angara, ...) which cause inflammation and necrosis of the kidneys.
 - In cases of ascites syndrome
 - Prevention and improvement of avian gout and excretion of urate deposits
 - Supportive treatment for reducing renal load
 - After stresses such as beak trimming, vaccination and heat stress
 - In cases of movement disorders caused by metabolic problems
- 

The effects of Lavaren on improving renal function in poultry

Recommended dosage:

250 cc/1000 L drinking water to support renal health and after intensive antibiotic therapy

500 cc/1000 L drinking water to treat renal infections and diseases
