

Sana Vera

100% Natural Skin Wound Healing Spray

Suitable for Equine

Topical spray

Ingredients:

- Calendula officinalis Extract
- Aloe vera Extract
- Propolis Extract

The skin is the largest organ of the horse's body, which protects it against insects, microorganisms, and external factors, and in fact, it is the body's first defense barrier. In cold weather it acts as a cover for the horse and in hot weather it cools the animal by sweating. It also protects the body from sunlight by producing natural fats. Therefore, maintaining skin health has a great importance.

Mechanism of action:

Sana Vera is a 100% natural spray that heals all kinds of wounds and skin inflammations in horses. This product is formulated based on the active ingredients of Calendula, Aloe vera and Propolis extracts which have broad anti-inflammatory, antibacterial and antifungal properties. The mechanism of action of this product is that by increasing epithelialization and angiogenesis, reducing inflammation, inhibiting free radicals and preventing the growth of microbes in the damaged area, it helps to treat and accelerate the wound healing process. By protecting the wound or injury, Sana Vera prevents further irritation and reduces the pain caused by the injury.

Sana Vera does not contain any toxicity and its formulation does not contain any synthetic chemicals, preservatives or antibiotics. Therefore, it can be used in sensitive conditions like pregnancy, milking, newborns and young animals, and even weak physical conditions.

Sana Vera Indications:

- Open wounds and skin burns
- Lesions caused by insect bites
- Lesions caused by fungal infections (dermatophytosis)
- Lesions caused by the bites of external parasites (fleas, ticks, mite, etc.)
