

Marimend 7

Natural Oropharyngeal Ulcer Healing Spray

Suitable for Pet

Topical spray

Ingredients:

- Calendula officinalis Extract
- Glycyrrhiza glabra (licorice) Extract
- Propolis Extract

Oral cavity health has particular importance in dogs and cats. Having a regular routine such as brushing and scaling your pet's teeth can help its health.

Lesions that occur in the oral cavity cause pain and inflammation in that area and cause various infections and symptoms such as anorexia, lethargy, and deterioration of the animal's general health.

Mechanism of action:

Marimend 7 is a 100% natural spray that heals all kinds of wounds in the mouth, gums, tongue and throat in dogs and cats. This product is formulated based on the active ingredients of calendula officinalis, licorice and propolis extracts, which have extensive anti-inflammatory, antibacterial and antifungal properties. This product is formulated in a way that by creating a protective film on the wound or injury, prevents further irritation and reduces the pain caused by the injury. In addition, by increasing epithelialization and angiogenesis, reducing inflammation, inhibiting free radicals and preventing the growth of microbes in the damaged area, it helps the wound healing process.

Marimend 7 is free of any drug toxicity and there are no synthetic chemicals, preservatives or antibiotics in its formulation. Therefore, it can be used in sensitive conditions such as pregnancy, milking, newborns and young animals, and even weak physical conditions.

Marimend 7 Indications:

- After scaling and tooth extraction
- ulcers caused by jaw and mouth surgery
- Treatment of ulcers and inflammations caused by gum disease (periodontal) and mouth inflammation (stomatitis)
- Reducing the severity of dental infections
- Treatment of wounds caused by viral diseases such as calicivirus, leukemia (FeLV) and immunodeficiency virus (FIV) in cats.
- In cases of papilloma or oral tumors of dogs and cats
- Oral ulcers caused by diabetes and renal failure
- Ulcers caused by trauma or foreign bodies
