

Lavar Ren

100% Herbal Medicine to Enhance Kidney Function

Suitable for Pet

Oral solution

Ingredients:

- Stinging Nettle (*Urtica dioica*) Extract

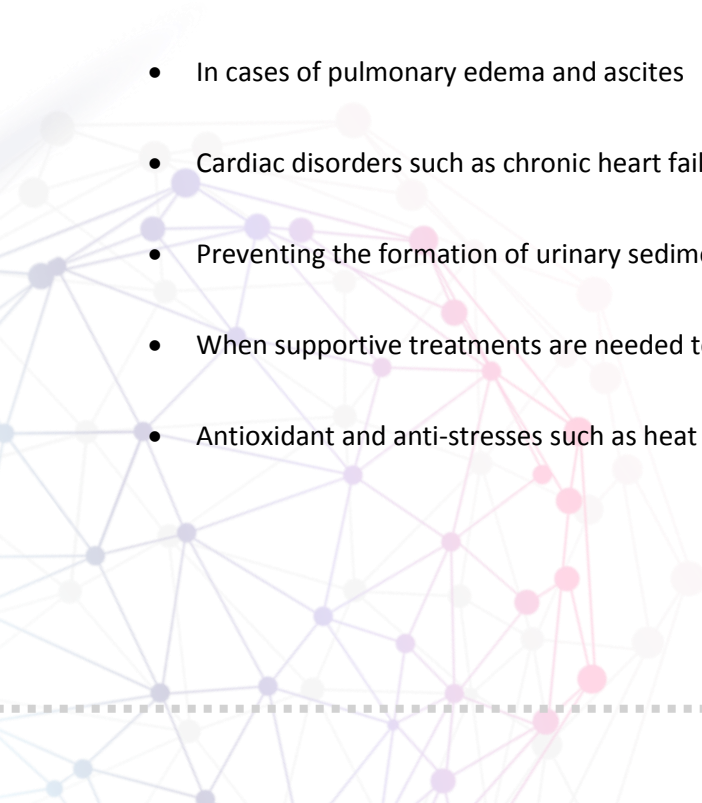

Kidneys play an important role in regulating water and electrolytes in the body and blood pH. Also, the kidneys play a role in the metabolism of hormones such as erythropoietin and renin and in the elimination of toxins and body waste. Urinary system diseases in young dogs and cats can be congenital or acquired. Various infections, urolithiasis and acute and chronic diseases can occur due to urinary tract disorders.

Mechanism of action:

Lavar Ren contains natural extracts of plants such as nettle and is formulated in a way that its different components intensify and strengthen each other's therapeutic effects. People of different countries have known the nettle as a valuable plant for a long time. The most important active ingredients in this medicine include phenolic compounds, quercetin, caffeoylmalic acid and chlorogenic acid. By increasing the volume and flow of urine, the active ingredients in Lavar Ren prevent retention of urine in the urinary tract and lead to the excretion of renal deposits and prevent the formation of kidney and bladder stones. The nettle in this product is very effective in reducing inflammation and infection of the urinary tract. Also, due to the high amounts of iron and vitamin C in nettle, it has antioxidant and anti-stress functions. Also, the nettle shows a significant antioxidant properties by enhancing the level of glutathione and reducing malondialdehyde and helping to control serum creatinine and blood urea nitrogen.

In general, Lavar Ren product improves kidney function, increases appetite and water consumption with a positive effect on kidneys and reducing renal load.
